

NAME:- M1. ARJUN

UNIQUE ID:- E0222054

CAII Module 3 Assignment

DATE: 01/10/2022

```
1) def rev_val(inp_val):  
    out_val = inp_val[::-1]  
    return out_val  
s = input()  
print("Reversing", s, "gives", rev_val(s))
```

OUTPUT:-

Arjun

Reversing Arjun gives nujrA

```
2) def upper_lower(inp_val):  
    upper_count = 0  
    lower_count = 0  
    for i in inp_val:  
        if i.isupper():  
            upper_count += 1
```

```
elif i.islower():  
    lower_count += 1  
else:  
    pass  
return upper_count, lower_count
```

```
u, l = upper_lower(input("Enter String here: "))  
print("Upper Case Characters:", u)  
print("Lower Case Characters:", l)
```

OUTPUT:-

Enter String here: Arjun

Upper Case Characters : 1

Lower Case Characters : 4
